## Quilting

*Well I got a little done on the landscape quilt. The weather has been so wonderful it's hard to stay in the work shop or sewing room. The bottom photo is one of the trees for the landscape quilt I described last month. The two photos closest are going to be a new table runner soon. This was a special request so one is sold but I will be putting the other two up when they are finished. I usually make 3 runners at a time out of each group of fabrics.*
